Information & Resources for a Safer, Healthier and Happier Life

Welcome to the Senior Health & Resource Fair

As you enter the expo, you will be surrounded by dozens of exciting exhibits on a wide variety of subjects pertinent to your well-being and happiness. Many of the exhibitors have come from throughout the region to discuss their health therapies and plans with you. So please take the time to stop and talk with them . . . you might just find an ideal match for your needs!

The producers of the Senior Health & Resource Fair would like to thank the following people and organizations for their work and support: Dru Isanda, for administrative

and organizational work; Daniel Tirapelli of Crux Design, for designing and maintaining our websites; Paul Scholl and the Messenger Publishing Group for all of their support as a print media sponsor, and K-ZAP Radio for spots and social media. We thank our sponsors Get Care at Home, Oakmont of Carmichael, California Health Advocates, Kaiser Permanente, SMUD, Wellcare, and Agency on Aging for their sponsorships and promotional efforts.

Thank you all!

The power of collective caring is an amazing thing.

At Kaiser Permanente, we make it our mission to help build healthy communities, and we couldn't do it alone. We'd like to extend our heartfelt appreciation to the Sacramento Senior Health & Resources Fair for their efforts to help older adults improve their overall well-being and enhance their quality of life.

ENTERTAINMENT

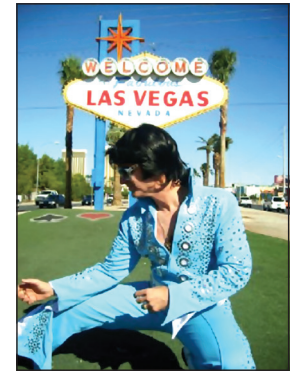

Classic Rock'N'Roll from the 50s, 60s and 70s. Car songs, surfer songs, old time rock, cruisin' songs! It's the music you grew up with. **Be sure to check out the Classic cars in the hotel parking lot!**

Common Symptoms of Peripheral Arterial Disease (PAD)

Intermittent pain/cramping in the legs • Weak pulse in legs
Leg and muscle weakness • Cold extremities
Numbness or tingling sensation • Non-healing wounds

PAD affects a shocking 12-20% of Americans age 65 or older.

1 in 3 Americans over the age of 50 with diabetes are likely to have PAD.

People with PAD have a 4-5x GREATER RISK of a heart attack or a stroke.

Untreated, PAD can lead to CLTI (Critical Limb Threatening Ischemia) and amputation.
